WORK EXPERIENCE 1 year 9 months

Tata Steel DPL | Deputy Manager, Operations & Digital Jul’23 – Mar’25

Led **9+ digital transformation projects** for the North Zone from scoping to implementation as a part of Tata Steel Downstream’s Digital Team

- Key Achievements
- **Digital Dynamo Award** (1/350+): MD recognition for the **best digital projects** across 9+ downstream units, boosting topline by **50+ Cr. INR**
 - **VP Recognition** (4/350+) for pioneering the development & deployment of a plant **operations control tower**, scaled across 6 business units
 - **Youngest member** (12/400+) **of the organization’s first Digital Transformation Team**, driving adoption & pilots across 2 business units

- Business Impact
- **Spearheaded a team of 4** for the end-to-end design, implementation & stakeholder engagement for a **7-app** modular material tracking **suite** – Unlocked **2.14 Cr INR/yr.** in working capital by institutionalizing aged **inventory lifecycle governance** using an **analytics driven platform**

- Reduced **service complaints by 17%** (69 → 56) & eliminated Rank-A defects by **digitalizing** error reporting **systems** & packing checklists
- Enabled real-time **profitability tracking** on **220+ customers** by building a **scalable tracking module** for senior leadership using **Tableau**

- Generated a targeted sales **pipeline** of **2.5Cr INR /mo.** by identification of **4 high potential customers** & **5 scalable SKUs** (>100 MT/mo.)
- Analyzed the **Voice of Customer** from **120+ customers** to uncover business opportunities across 5 product lines & identify key error targets – **Boosted CSAT by 14%** (73% → 87%) through **2 new support apps** addressing consumer pain-points informed by **Sentiment Analysis**
- Mitigated **1.7 Cr. INR/mo.** of lost sales by creating a real-time **performance monitoring module**, identifying key loss drivers for critical SKUs
- Increased **24 Cr. INR/yr.** in revenue potential by enhancing dimensional **accuracy 10x** (0.1mm → 0.01mm) on **precision cutting** operations

- Process Improvements
- Boosted **machine throughput by 12%** (**4.3KT/yr.**) by modernizing the drive systems, enabling **2x faster processing** for critical steel panels
 - Ensured **zero production line injuries** by **commissioning** an automated **24/7 safety surveillance and early warning system** in 2 plants
 - Achieved **6% reduction in Scope-2 emissions** (3.1KT CO₂ → 2.9KT CO₂) through power savings from cycle time & equipment optimization
 - **Reduced interplant transfer costs by 50%** (**15L INR/yr.**) by deploying app with digitized approval workflows & integrated expense tracking
 - Saved **7.7L INR/yr.** by eliminating return freight due to spec-mismatches in 3 product segments via **automated test certificate retrieval**
 - Attained **~75% reduction in bill cycle time** (1mo. → 1wk.) by deploying robotic process automation for reconciliation of proof of delivery
 - **Halved material clearance time** (48h → 24h) via in-app alerts for QA managers & updating error database for **rapid RCA & process fixes**
 - **Reduced downtime by 9%** (90h/mo. → 82h/mo.) by instituting Jishu Hozen (Autonomous Maintenance) on **6 machines across 2 plants**

- Firm Building Initiatives
- Launched a **Factory Innovation Forum**, raising **Kaizens 59%** (196 → 314) by improving **accessibility** via multilingual **speech-to-text** inputs
