The amazing world of **Ferrari** and the **Scuderia** racing team.

Racing is a great mania to which one must sacrifice everything, without reticence, without hesitation.

Founded by Enzo Ferrari in 1939 out of the Alfa Romeo race division, the Ferrari company built its first car in 1940 and produced its first Ferrari-badged car in 1947 – all to fund his racing team.

Ferrari epitomizes the power of a lifelong passion and the beauty of limitless human achievement

It is the oldest and most successful racing team, holding the most constructors' championships (16) & WDC wins. Running on a hattrick of Le Mans victories after a 50-year hiatus.

The foundational principle of "quality of revenues over volume," ensures brand exclusivity and profitability – managing production & the aura of exclusivity - increasing production from 7K in 2014 to 14K in 2024 against a much larger demand. One of the 12 brands to get a AAA+ rating (BSI).

The client is not always right.

81%

Of New Ferraris are sold to repeat customers. With >48% of them having multiple Ferraris – reinforcing their fierce brand loyalty. All while serving 4 year long waitlists and invited entries for Exclusive Models. Banning Celebs who don't follow the "Ferrari" Ethos

<40.

Sold to the Neuvo Rich today - 30% of Ferrari Buyers fall into this age bracket

Pilots.

The Performance & Track Focused Customers. Engaged through select experiences – from buy-in experiences like the XX & Corse Clienti to with 850K+ Visitors & Participants across the lot.

What’s behind you doesn’t matter

637

Podiums Ferrari has in the F1 scene. 200 more than its closest competitor – Mclaren. Motorsport is their moat – their racing dominance the core differentiator.

Quarter

Market Share held by Ferrari in its top 25 global markets. In a market saturated with competitors like - Lamborghini, McLaren, Aston Martin, and Porsche – all while rejecting market share as a KPI.

Die with Memories Not Dreams.

51%

The Percentage of Hybrids accounted in the total shipments surpassing ICE vehicles – due to of the shift in climate. Navigating through Euro 7 & Fit 55 Frameworks with their new lineup – less noisy than the past.

500+

With the top 10 suppliers only accounting for 23% of the costs. Indicative of a low-risk diversified base – engaged in collabs with NXP & Unis for developing critical components like brakes (Brembo) & transmissions

180+

Number of Dealers Ferrari sells through – provided with extensive trainings for a uniform CX across its 200+ Points of Sales. With Integrated Financial Services having a $1.6B portfolio.

While having a plethora of collaborators in a rapidly changing climate, Ferrari is one of the few brands to still run a naturally aspirated V12 in its Vehicle lineup while competitors downsize engines.

2030

Year by which Ferrari aims to achieve carbon neutrality – coming up with a new e-Hub facility powered by PV cells. The push towards electrification & EU's ESG Metrics driving the shift.

The truly amazing world of Ferrari

Prancing Intelligence.

The truly amazing world of Ferrari

Company.

AI driven generative part-design is optimizing aerodynamics and reducing weight in R&D, while supporting race performance & tracking.

Customer.

There’s a shift towards hyper-personalized driving dynamics and intelligent in-car experiences that AI brings to the table.

Competitor.

Brands mastering AI to enhance the driving XP—assists to make it easy—will win. Not just mech prowess but intelligent responsiveness while pumping performance will give Ws.

Collab & Context.

Work around the tension around efficiency and regulations with AI enhancements – going towards smart lux. The Dealer Network would need to adapt greatly with the advent of tech.

The Modern Day.

AR & VR.

Immersive AR showrooms bring vehicle engineering to life for clients. Spec your Ferrari & Live it.

Generative Sims.

Ferrari's AWS partnership enables ~60% faster engineering simulations. Faster performance in the lab and on the track.

Engaging Fans.

IBM's Watsonx transforms ~1 million data points/sec into immersive fan stories. More interaction with the world's most passionate fan base.

Same. Same. But Different.

Integrate Intelligent Innovation moving from the erstwhile Technical innovation position

Thank you
